

Gelli Fun for Kids (No Wrong Art Book 2)

If you're a kid between the ages of 8 and 98, who already enjoys using a gelli plate for mixed-media art -- or would like to try -- than this book will inspire you with fresh ideas and encourage you to experiment with new tools and techniques. --> View sample pics from the book at: <http://franlafferty.com/gelli-fun-for-kids/> Have you tried using craft rubber bands in your prints yet? Would you like to see examples of different types of paint you can use with your gel plate -- how they perform outside their bottles, pots, and tubes? How about making a yarn feather (instructions included and E-A-S-Y!) and using it in your prints, then saving its painted beauty for other art projects? Over 70 color photographs and digital scans show details of the author's kid-friendly gelli art world, from tools and first layers through finished pieces that feature family pets and other fun. Combined with its companion book, *Gelli Fun -- Making and Using a Gel Plate for Mixed Media Art*, *Gelli Fun for Kids* makes a perfect springboard for gel plate art -- a great gift for the adventurous creative, or for those who are getting a little bored in their art space and want to try something new and exciting.
