

Slightly Engaged (Slightly Series Book 3)

There are a lot of things worse than being SLIGHTLY ENGAGED being entirely broke, completely alone and wholly perplexed. Its been a year and a half since Tracey and Jack moved in together, and everything's totally perfect well, okay, almost perfect. There's still Tracey's mom, who says they're living in sin, and her friends, who are all smug, married and totally sure that there would already be a ring on Tracey's finger if she hadn't been in such a rush to co-sign a lease. Even Tracey is beginning to wonder whether Jack really is looking for a permanent relationship, or whether she's just renting space in his heart. But just when Tracey's doubts are seriously raging out of control, Jack's mom lets her in on a secret--he's just taken an heirloom diamond out of the family's safe-deposit box, which must mean that he's going to propose any day now. Okay, any week now. Any month now?
